

12.3 Test Summary Report

Introduction

The Test Summary Report provides a high-level overview of the entire testing process. It is used to communicate the final testing status to stakeholders in a simplified and structured format.

It focuses on overall results rather than detailed test case-level information.

Contents of Test Summary Report

- Total number of test cases executed
- Total passed and failed test cases
- Overall security testing status
- Summary of vulnerabilities identified
- Automation execution result using TestNG

Final quality assessment of the application

Execution Summary:

Based on the final TestNG execution:

- **Total Test Suites Executed:** OWASP Security Test Suite
 - **Total Test Cases Run:** 12
 - **Passed:** 12
 - **Failed:** 0
 - **Skipped:** 0
-

Conclusion

The Test Closure Phase ensures that all testing activities are formally completed, documented, and reviewed. It confirms whether the OWASP Juice Shop security testing objectives were achieved and provides final assurance on test coverage and results.
